NO CLIMATE IN ALL THE WORLD

Writes Local Minister to of 55 Chester Avenue, Former Charge.

ALBUQUERQUE'S GROWTH IS NOTHING SHORT OF MARVELOUS

Rev. John Barron, pastor of the Congregational church in this city writes as follows to the Register Chronicle, a newspaper published at the scene of his recent ministerial labors at Marsellles, Illinois;

Editor Register-Chronicle:-I had expected to fulfill my promise to give my impressions of New Mexico and the city of Albuquerque long before this but have been unable to do so un-til now. Perhaps it is all for the best for many people make the mistake of writing about places before taking time to understand the real situation I do not pretend to know New Mexico or even the people of the city of Al-buquerque but will give the impres-sions received up to the present.

The journey was long, hot and dus-ty and it was a real pleasure and great surprise to step off the cars into the beautiful depot at Albuquerque. I was nearly midnight, yet we were m by about a dozen of the people of the church. The first night was spent at the Alvarado hetel. This hotel was built by the Santa Fe railroad al great cost and it is the pride of the city. It is as good as anything of the kind in Chicago or New York. Lous before daybreak we had decided that Albuquerque must be a busy place or account of the noise from trains and switch engines, which never ceased from dark to dawn.

The first two days were spent sight-seeing and house hunting. seemed that houses were more scare here than on any other part of the earth. The residence portion of the business section is much better than I had expected to find. A stranger is at once impressed with the business activity and splendid buildings. It is said that this city does as much business. ness as most eastern eities of forty thousand people, and I have every reason to believe it is so. Many of the dry goods stores are owned by Jews The Jewish community is unusually large and rich, they have their own church and preacher. They are patriotic and public spirited citizens are splendid business men, as may be seen by the store windows as attractive a the stores of State street Chicago.

see nothing but the glaring saloo and gambling places into which stream of men is ever pouring after 7:20 in the evening. But other th of interest are to be seen. The school are as good as any to be found in an eastern city of the same size and whave a small university with a facult

The banks have yet fine buildings, with large capital, an millions. There are two daily paper worthy of any city; also six weekly

City's Remarkable Growth. The recent growth of Albuquerque is remarkable. In 1900 the population was about 7,000. It has now a least 15,000 people, not counting Ob-Albuquerque with a population of about 1,200, or Barelas with about 1.000. The city is growing very full The superintendent of whools recently stated in one of the papers that there were 200 more students in the school on the first of October than on the first of November one year ago. The posimister has just asked for an extra mail-carrier to meet the increase of population. The Traction company is planning improvements to cost, upwards of \$50,000 in the extension of the street cars, and here let me say service as far as it goes. During the week of the territorial fair, 52,000

people rode on the street cars. I do not feeling like mying much about the climate on account of the lack of actual facts from personal observation. It is certainly fine now and has been since the end of August. I is quite warm in the sun most every day but in the shade it is always coo and the nights are perfect for walking and sleeping. Many people come here on account of the high, dry and mild chimits. The whole country is a nat-ural canitarium for tuberculosis sufclimate are confident there is no cli-mate in the world equal to this. There is something very fascinating is climate, city, people and territory.

Yours truly. JOHN W. BARRON.
